

DASHMESH PUBLIC SCHOOL

Shalimar Garden, Ext I, Sbd., Gzb., U.P

Dated : 18.05.2020

Dear Parents,

As per orders of the state for Corona Pandemic, School Management has decided that Summer Vacations for session 2020-21 will commence from 21st May 2020.

Usually the arrival of warmer weather used to be a signal that vacations were just around the corner. People made extensive plans to travel, meet distant relatives, relax and unwind. But this year the world is facing an all-encompassing disruption of the coronavirus pandemic. Yet time marches on. April showers did bring May flowers, and spring is still bound to turn into summer. So, why should we or our students stop?

Students are at a stage when they constantly should be learning something new and keep themselves engaged in productive activities. It might seem that it is hard to find something to do at home, however, we have carefully drafted our Holiday Homework around a few things/ activities with which students can spend their time without stepping out of their homes:

1) To compile the syllabus taught in virtual classes:

Now with availability of books and notebooks, it will be required from our students to start pasting the work done under respective subjects in their school notebooks so that the same can be checked post lockdown. **Marks/ grades will be awarded for the same.**

2) To undertake a project independently:

Making projects / presentations based on any one current and thriving issue like **Covid 19 Nature after Covid, Essential Services Taskforce, River Ganges etc.** will give our students an insight into the real world.

Apart from the tasks mentioned above, the holiday homework will also consist of tasks like :

- **Acquiring a new skill**
- **Learning a new language**
- **Building Immunity : yoga and detox**
- **Going green : planting herbs and other plants**
- **Family Bonding tasks: reviving the cult of the age old board games.**
- **Taking up a new hobby**

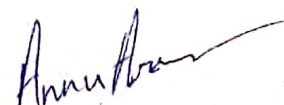

And last but not the least , this is the best time to spend time with family. During our busy lives, we may not get enough time to talk to our family and spend quality time with them. Encourage your kids to help you in the household chores or make them spend some extra time with their grandparents.

We hope together we will steer out of this crisis successfully.

Regards
