*Dear Parents,*

*Summer Vacations is a break from fixed schedules, rules and regulations of the school. It's time to be safe and happy yet because of ongoing covid'19 crisis the children are forced to spend a lot of time indoors . It becomes a challenge to keep their little minds busy . Keeping this in mind , we have planned the activities that will keep the children engaged indoors while channelizing their energy and at the same time improve their concentration to promote independent learning.*

## **DO SMALL THINGS IN A GREAT WAY.**

Most of the time, children effortlessly copy their parents and elders, which is good. If you want your children to grow up into intellectual, kind and humble adults, it is necessary for you to be one first. While children are growing up, their brain is capable of storing each and every positive and negative deed or saying that occurs around them. Parents must stay extra careful and cautious in front of their children before acting or speaking anything. Parents should be aware about what are healthy habits for kids that they should be teaching. Starting with the everyday good habits for kids, parents should teach their children about developing consistency and following a regular order so they can grow up healthy and confident.

### Health and Hygiene

1. Wash your hands before and after every meal.
2. Cover your mouth and nose with a tissue when coughing or sneezing.
3. Eat fruits and green leafy vegetables.
4. Avoid junk food as it contains fat.
5. Brush your teeth at least twice a day.
6. Keep your surroundings clean.
7. Trim your nails often.
8. Do not waste water and electricity.
9. Wear fresh clothes every day.
10. Brush or comb your hair twice a day to keep the tangles out.
11. Make a habit of wearing mask.

## *How I spent my vacations (Covid Activities)*

- 1. Play indoor games with your family members .**
- 2. Develop the habit of doing Yoga (like pranayam) and daily exercises and make videos of the same.**
- 3. In a battle against Covid-19 we all have our duties to fulfill. While the Corona warriors are fighting for us we need to take some preventive measures to keep ourselves safe. We need to wash our hands regularly for 20 seconds. Wear mask whenever we go out. Maintain safe distance from other people when we are out. Make a video of it of the same .**
- 4. Convey your feelings to the covid heroes by giving a smiley made of yellow sheet through your parents when they meet them .**

## COMPETITIONS

1. Show and Tell Competition will be held after Summer Break. Child has to bring his/her favourite item from home to the school and **tell** a few lines about it (like what is it? why is it their favourite? Etc). Choose any topic from topics mentioned below .

## LET'S PLAY SOME FUN GAMES

### 1. Play with Bubbles:

A cute game for your little cutie pies. Take a plate and place a drop of shampoo or dishwasher .Pour some water on it. Mix it and give your kids some straws ( along with the parents) and ask them to blow very gently to create some bubbles. The one who blows the largest or biggest bubble will win the game.

### 2. Listening sounds game:

Sounds like Birds chirping, cows mooing, are some of the sounds every kid should be familiar with. Play some sounds on a player for your kids and ask them to recognize . The child who guesses the most will win the game. Paste pictures of birds you have seen during lockdown on A4 size sheet (from cut and paste book )

### 3. Clay Dough

Playing with clay brings out the creative side of any person. So, give some clay dough of different colours to your kids and watch them make cool things with it. This will definitely bring out that fun and creative side of your kid and this simple game will keep them engaged for a long time. Just tell your kids not to put them in mouth.

### 4. Bingo Says "Follow me"

This is an easy activity and can be great for younger kids and toddlers and helps them improve motor skills and their balance.

### WHAT YOU WILL NEED

A. Coloured tape

B. Flat floor space to play

1. Stick different coloured tapes tape on the floor

2 Each coloured tape can have a different rule to walk on. For example, you can ask the kid to stretch his/her arms straight and walk on the red coloured tape without losing balance .

3. The child has to walk only on the tape. If he falls off the tape, he'll be out of the game.

4. The child that walks the entire length of the tape without falling off the tape wins the game.

## *SORT THESE OUT*

### *REQUIREMENTS:-*

□ *Fresh Fruits/Vegetables*

□ *Primary colours (red, Blue, Yellow)*

*Let's sort out*

*Fruits and veggies play a vital role to keep our body and mind healthy. Let's move on with some activities related to fruits and vegetables that will motivate the child to play and consume the same.*

*Let's start the game*

*Place two plates and bowl full of vegetables and fruits collectively and ask the child to segregate and collect the vegetables in one plate and collect the fruit in another plate.*

*Conclusion:- At the end of the game the child will come to know how to identify the colours and recognise the names of fruits and vegetables. Make a flash card of fruits and vegetables of size A5 and send it along with your ward when school reopens.*

*For colours activity place different objects like toys, crayons, clothes etc and ask the child to segregate all the objects of one colour aside and other colour towards different side*
